

# Complete Pass Scout

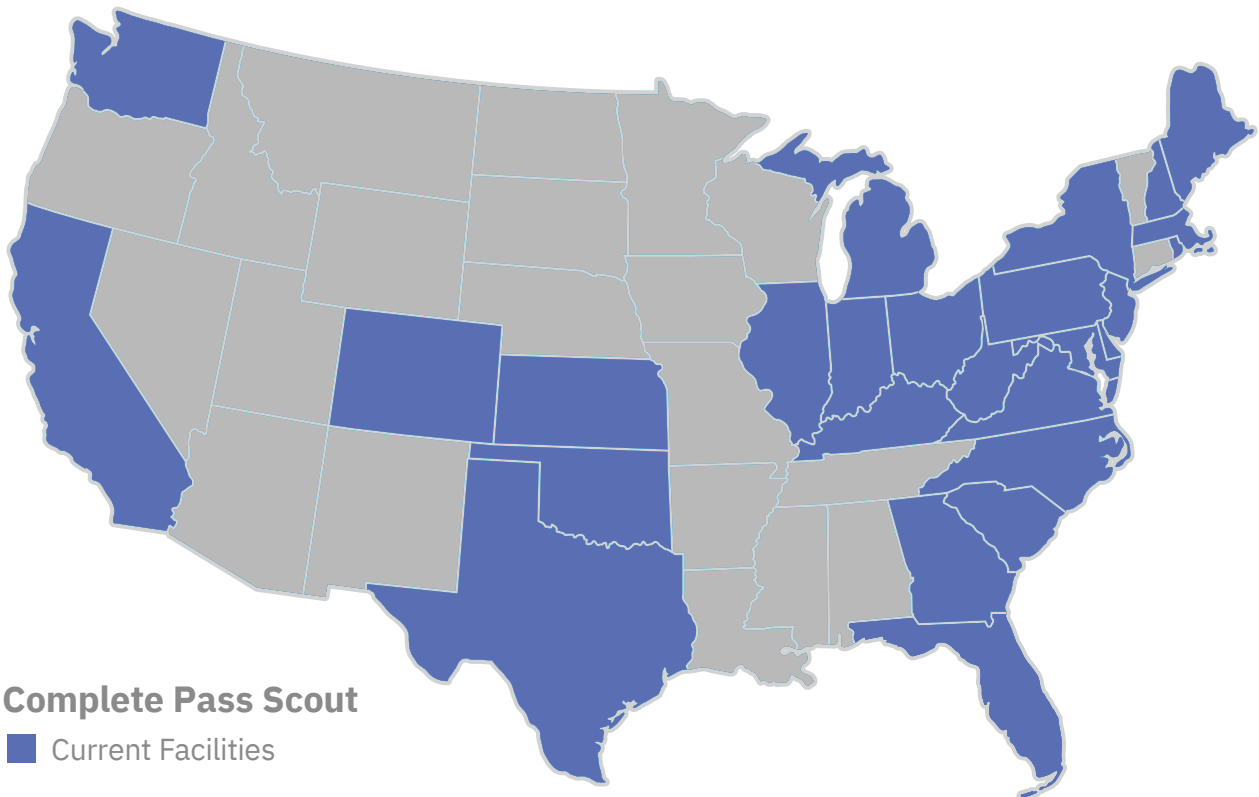

## Seamless, Cost-Efficient National Toll Coverage

### Best Coverage

More than 40 tolling authorities and 100 percent of major U.S. toll roads

### Complete Pass Scout Benefits

- Tolling simplified with coast-to-coast coverage
- Single device to minimize windshield clutter and simplify back-office operations
- Includes emerging 6C transponder technology
- Toll by plate and violation mitigation

## How it Works

With your shiny new Complete Pass Scout, you are ready to hit the road with coast-to-coast toll coverage. Here's what you need to know.

### Installation

Transponders must be clear of any interference. Complete Pass Scout tags should be mounted at least 1 inch from the bottom of the windshield and no more than 4 inches left or right from the center of the windshield.

### Pro Tips:

- Transponders should never be installed behind a wiper location.
- If necessary, install the device as close to the center as possible to ensure that it is outside or slightly above wiper location.

### Need to Switch Trucks?

#### We've Got You Covered

Complete Pass Scout is reusable and transferrable from vehicle to vehicle. Besides remounting, all you need to do is update the truck information for the device by visiting the Bestpass customer web portal at [my.bestpass.com](http://my.bestpass.com) or by contacting the Customer Service team.

Don't forget to write down your Complete ID, located on the front of the device. You'll need it! Ever in a jam and need to show the toll attendant your agency reference number? Check the back of the Complete Pass Scout!

### Warning: Do Not Open the Case!

This is a single unit. There is no reason to open up the case to get to the Complete Pass Scout components. Trust us on this one. Please attach to the windshield with the exposed adhesive.

### How Do I Find Out More?
